A Splendour Marine Group Company

ABOUT US

Established in December 2019 as a provider of integrated underwater solutions, Nereus Subsea has grown to become World's leading commercial diving company.

Our specialised fleet with most advanced systems coupled with the company's core values at the heart of every operation, Nereus Subsea has a world-class offering of diving services.

Dedicated to the business performance of all our customers we are prepared to double down on our commitment which is "Your Performance is our Business"

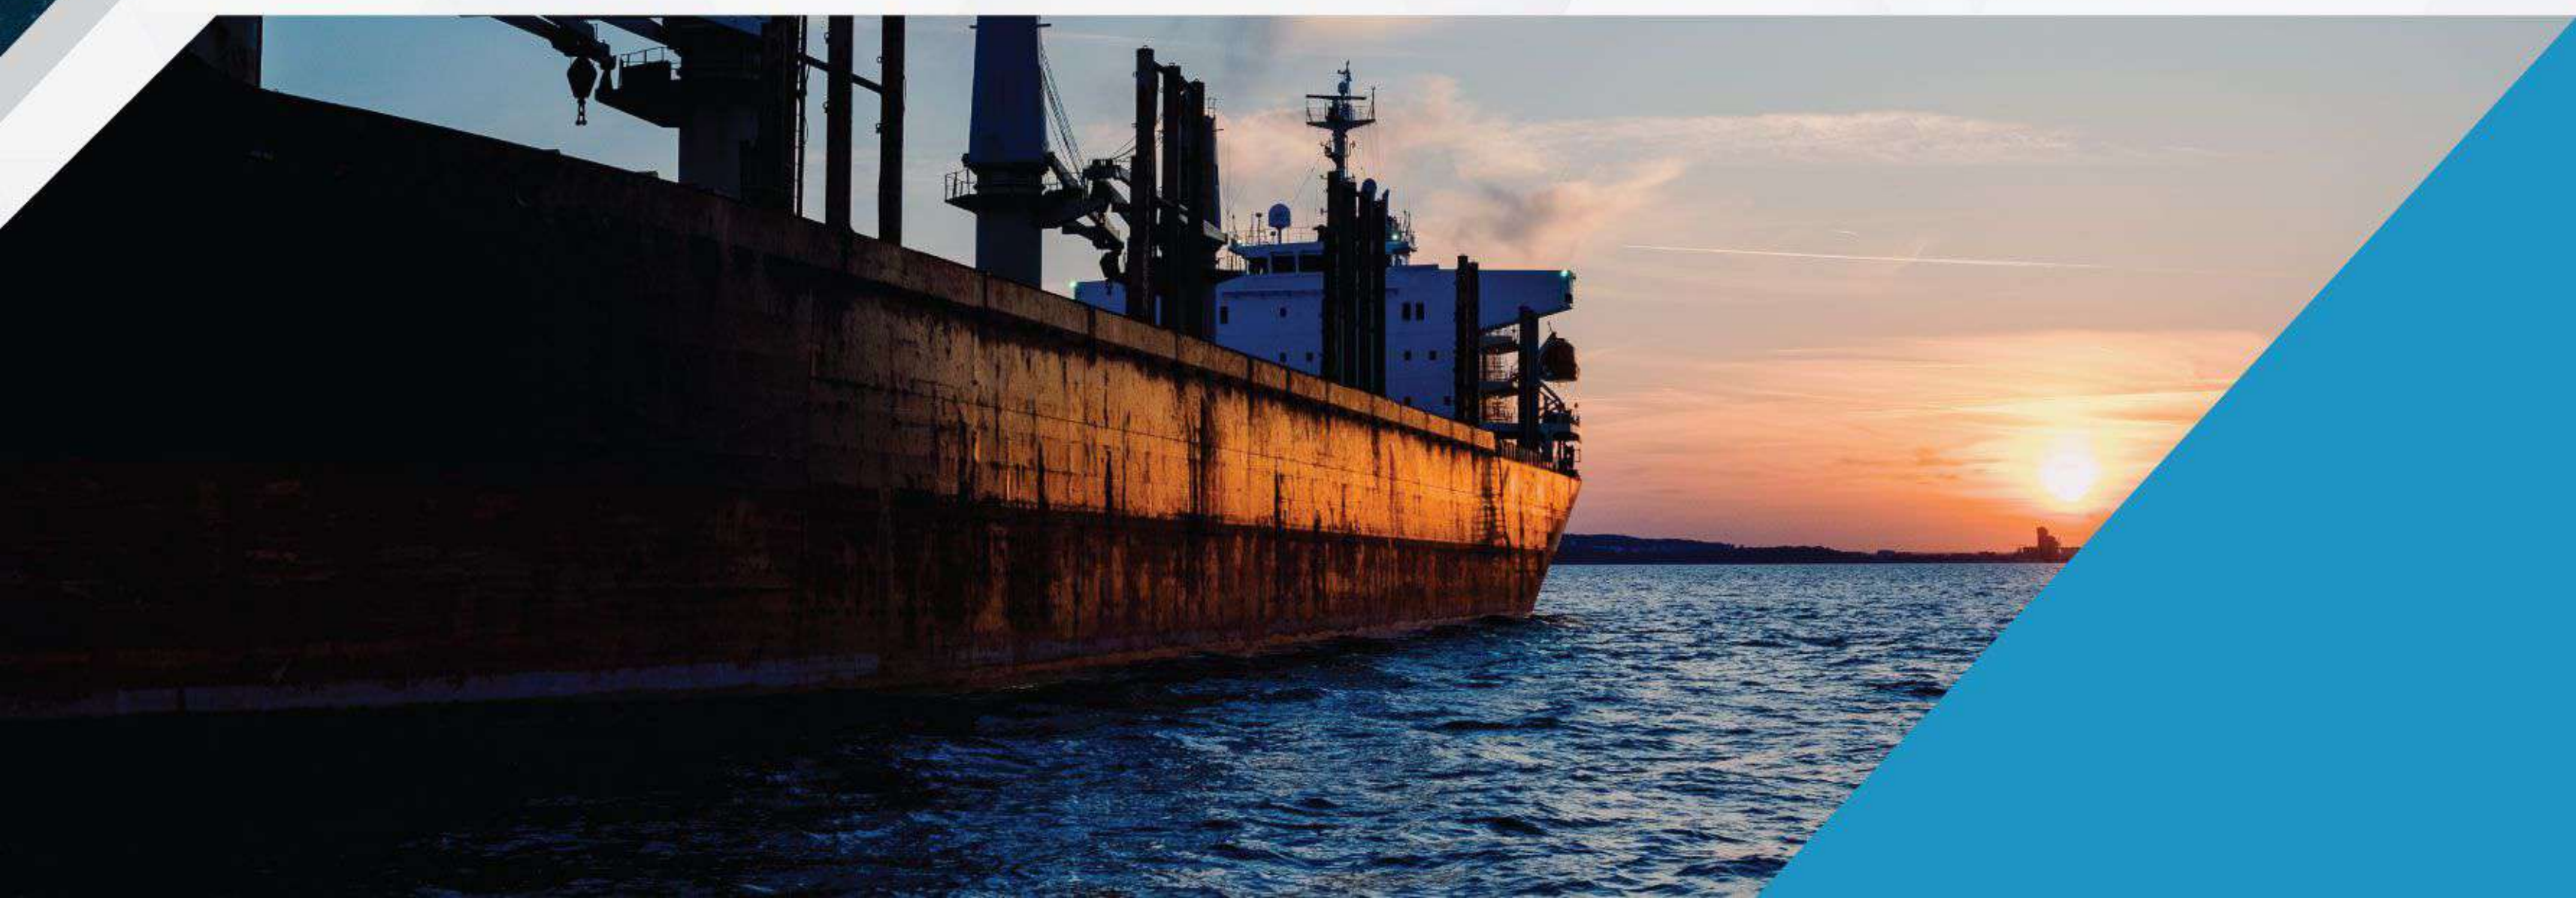

OUR VISION

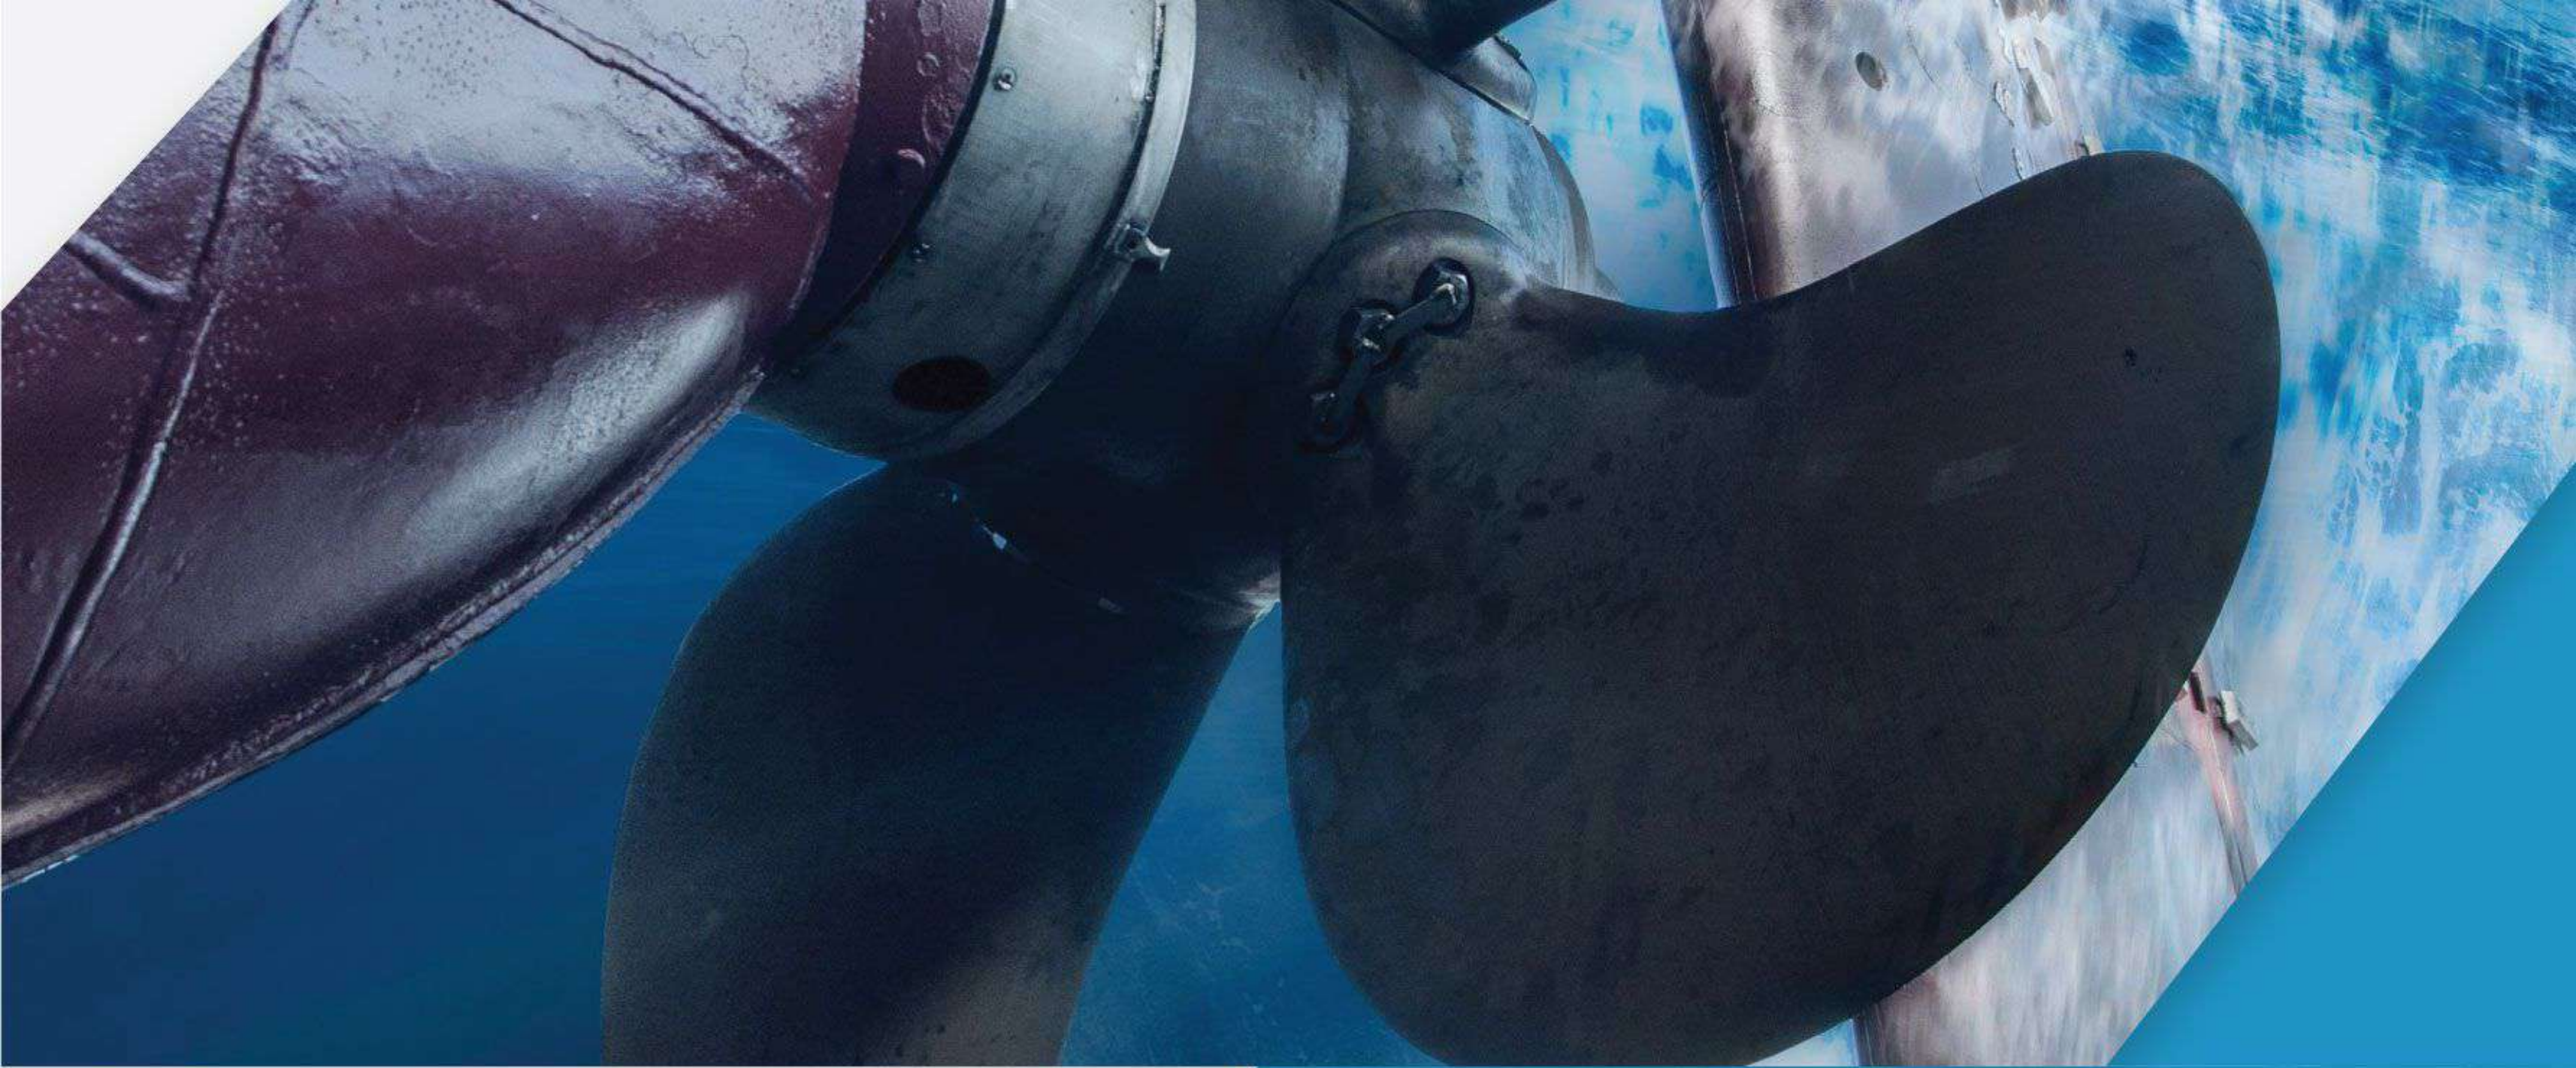

Our Vision To be preferred Marine support service provider to the maritime industry operators, shipyards and to the offshore oil and gas industry

OUR MISSION

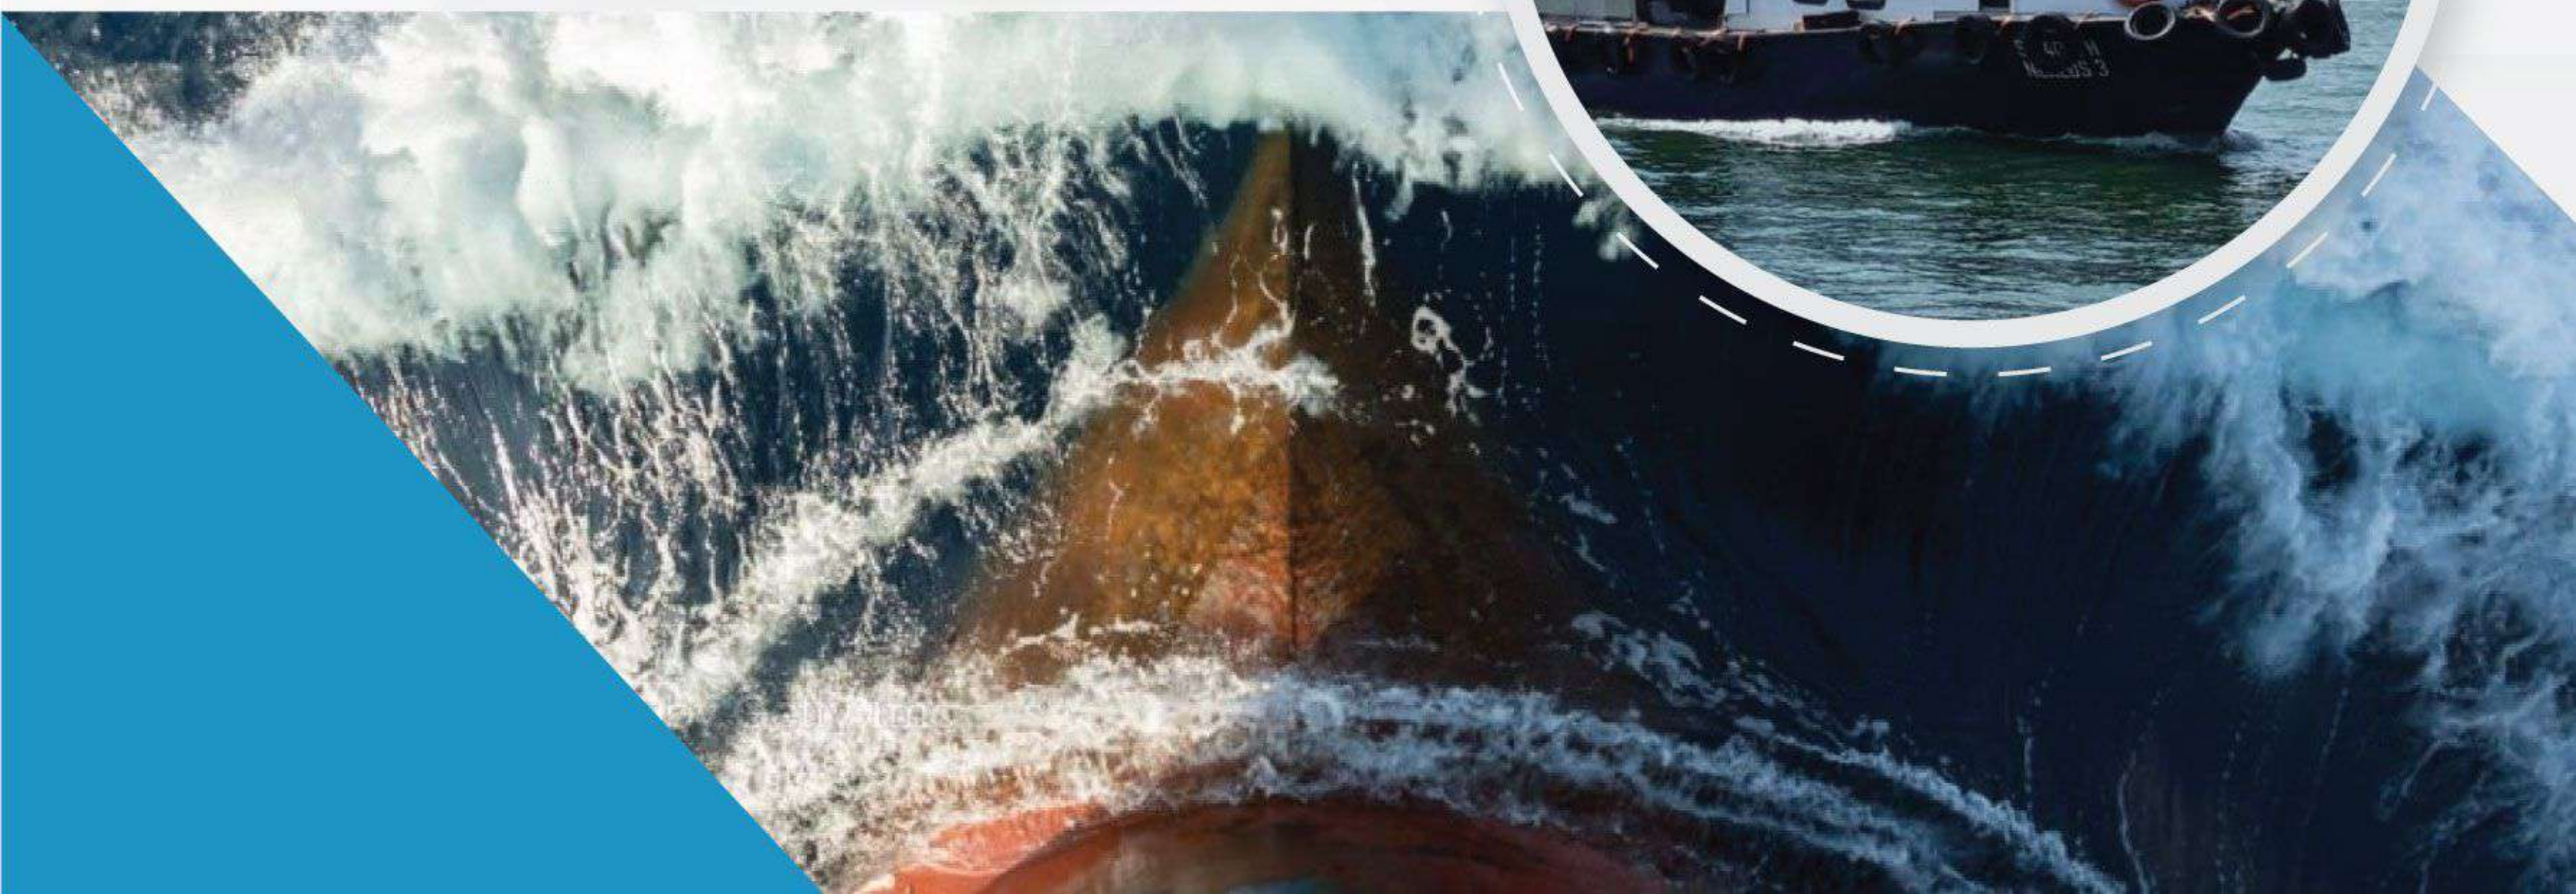

Our Mission To deliver value to our customers, stakeholders and partners by championing safety, reliability and quality in our services.

WHY CHOOSE US

- ▶ “One-Stop-Shop” for Underwater Diving Work
- ▶ “Guaranteed” Fuel Efficiency after Hull Cleaning
- ▶ 24x7 Availability
- ▶ Quality Compliance ISO 9001:2015
- ▶ Recognized & Approved by IACS Class & MPA
- ▶ Latest Hull cleaning & Survey Equipment's
- ▶ Trained, Certified & Experienced Divers
- ▶ Exceeds Aus & NZ bio fouling standards
- ▶ In Compliance with Local & International standards

OUR SERVICES

Maintaining the health of the vessel, while it is underwater, is one of the most important concerns of ship companies as underwater maintenance ensures that your vessels are always in optimal health, without irreparable damage. Underwater hull cleaning services are especially important as the ship's hull may face damage during its sea-faring journey.

Underwater Maintenance

- ▶ Hull Cleaning
- ▶ Thruster Cleaning & Polishing
- ▶ Propeller Super Polishing
- ▶ New Zealand & Australian Standards Hull Cleaning

Underwater Repair

- ▶ Propeller Cutting
- ▶ Rope Cutter Replace
- ▶ Plugging & Blanking
- ▶ Replacement of Echo, speed Log sensors
- ▶ Rudder Repair
- ▶ Anodes Replacement
- ▶ Underwater Welding & Repairs

Survey & Inspection

- ▶ In-Water class survey
- ▶ Clearance Measurements
- ▶ Paint Sampling & Analysis
- ▶ Underwater Inspection In- Lieu of Dry Dock (UWILD)
- ▶ CCTV Inspection
- ▶ Hull Still Photo Inspection
- ▶ Sale & Purchase Inspection Scrubber Pipe Borescope

Salvage & Recovery

- ▶ Recovery
- ▶ Mooring buoy Repair & Maintenance
- ▶ Sea bed scanning
- ▶ Navigational Buoy Repair

Fleet Performance

- ▶ Customized performance contracts offering 24x7 priority service.

Specialist Services

- ▶ Stern Tube Seal Repair

With our extensive underwater maintenance solutions, including hull cleaning services, propeller polish, anode replacement, ship maintenance and repair, we ensure that your ships are in the best of health, at all times. Underwater maintenance by Nereus Subsea will also supplement the health of the vessel and keep it functioning effectively for longer.

REMOTELY OPERATED VEHICLE (ROV)

Nereus utilizes ROVs for underwater maintenance and inspection services to enhance operational efficiency. With these advanced capabilities, Nereus offers the best underwater services in the industry.

Advantages

- ▶ Brushing
- ▶ Cloud Data Storage
- ▶ Enhanced Safety
- ▶ Robot Location Tracking
- ▶ Minimum Paint Wear-out
- ▶ Precise Cleaning
- ▶ Cost-Effectiveness

Comming Soon

Debris recovery system with ROV

NEREUS SUBSEA GREEN DIVE BOAT

Nereus Green 1 is the first eco-friendly dive boat with a biodiesel engine, launched by Nereus Subsea for a greener and more sustainable operation.

Advantages

- ▶ Advanced propulsion system maximizes energy efficiency.
- ▶ Harnesses renewable energy sources for sustainable operations.
- ▶ Uses biodiesel-powered engines (Weichai's WD10C326-21) for reduced carbon emissions.
- ▶ Achieves approximately 74% reduction in carbon emissions compared to conventional boats.
